The Millennium Challenge Account – Belize (MCA-Belize) has received financing from the Millennium Challenge Corporation toward the cost of the Education Project, which aims to equitably increase the number of post-primary graduates with the competencies relevant to labor market demand, and the Energy Project, which aims to lower the wholesale cost of electricity in real terms, and intends to apply part of the proceeds toward payments under the contract for Procurement of Laptops for Standardized Testing.

MCC’s funding is appropriated by the U.S. Congress and obligated to the compact upfront, with no incremental or partial funding. So when a contract is signed with an Accountable Entity, money is already available to the MCA-Belize and, for most contracts, invoices are paid directly to Offerors by the US Treasury. MCA Belize now invites offers from eligible offerors for 800 Laptops for Online Standardized Testing and 17 Mobile Laptop Charging Station.

Bidding will be conducted through the Shopping procurement method as specified in the MCC Procurement and Policy Guidelines (PPG) and is open to all eligible offerors as defined in the PPG.
